

Professional Poll Worker Program

For the August 18th and November 3rd Primary and General Elections

We are committed to your success on Election Day, your health, and safety. In fact, my office is taking a variety of precautions so that our voters and poll workers can participate safely.

To better serve you, we have created an on-line training course. The on-line course is temporarily replacing our in-person training program for the 2020 election cycle. The course will cover all the topics that would have been normally covered in your in-person training class.

There will be Practice-Makes-Perfect open labs available so you can strengthen your training with hands-on experience.

Thank you for your service and see you on Election Day!

Mark S. Earley
Supervisor of Elections Leon County

Training for the August 18th Primary Election has ended.

We are busy preparing for the Primary Election and will have the training information for the General Election uploaded to our website on September 1, 2020.

You will receive your training information for the November 3rd General Election as well as your assignment information the first week of September.
